

EarthPro Hinged Containers

EarthPro Hinged Containers are made with 40% Natural Minerals and Polypropylene and are Recyclable. Our sturdy, high performance design includes 4 corner locks that stay closed eliminating leaks. The containers are microwaveable, stackable and widely considered best in class quality. The containers have a subtle message embossed on the lid about the natural minerals and source reduction and your commitment to green packaging.

EarthPro Hinged Containers can be custom embossed creating unique branding opportunities!
