

Custom Product Guide 2026

We can customize most of our stock products to provide a comprehensive branded take-out program.

Paper Bowls & Lids - Custom Print

We print 1, 2, 3 or 4 color process on our unique Paper Bowl line including a certified compostable option. This allows for new branding opportunities and a distinctive look for your special creations. We produce a variety of sizes covering salads, bowls and hot entrees.

These products are made from renewable paper and are a great replacement for soggy fiber and heavy duty plastic bowls and containers.

Why settle for the same look that everyone else has? Let's get creative!

Paper Food Containers & Cold Cups - Custom Print

We print 1, 2, 3 or 4 color process on our entire line of food containers and cold cups.

- Paper Food/Soup Containers
- EarthPro Compostable Paper Food/Soup Containers
- Paper Cold Cups

Don't miss the opportunity to promote your brand!

EarthPro Hinged Custom Embossing

We emboss logos, branding and messaging onto the center lid panel of all of our EarthPro Hinged Containers. Minimum depends on the size of container and starts as low as 150,000 units.

Custom Take-Out Bags & Deli Papers

We provide Premium Custom Paper and HDPE Take-Out Bags in a variety of styles plus Kraft and White Deli Papers. These items allow the opportunity to single source all your key branded take-out products, creating a very simple and secure program. Virtually any size, any thickness, and multiple handle styles for bags.
